The BioMat is a "pad" which lies on top of a massage table or your home mattress. It converts electricity through a computerized control panel, produced by Texas Instruments, into Far Infrared Rays (FIR), nature's invisible light. FIR was discovered by NASA to be the safest, most beneficial light wave. This reduces swelling, increases blood flow and has been shown to destroy cancer and viral cells without harming surrounding healthy cells. It penetrates 6-8 inches into the innermost recesses of the body, stimulating healing and regeneration of nerves and muscle tissue layers.

Bio-Mat Specifications

1. The RichWay Bio-Mat® uses Japanese Kurare Carbon ceramic (Patent 1386560), and has electrical consumption of 60% less as compared to other electric mattresses.
2. The RichWay Bio-Mat® has a special function that emits Negative Ions and transforms + Ions to - Ions in the human body. It provides strength and energy and relieves pain.
3. The Kurare's Super Fiber Materials generate far infrared rays (8-12 micron) that the body can easily absorb.
4. Special layer of double Fiberglass completely cuts off harmful Water Vein Waves.
5. The Bio-Mat has an advanced IC chip and a soft touch control system, which has many convenient functions.
